Moderator

- ▶ **Dongman Lee, Professor, Korea Advanced Institute of Science and Technology, Korea**

11 years of IGF, 5 years of KriGF

- ▶ 1) How current multistakeholder model of governance, which also started to encompass governments on its table, has impacted the way the Internet Governance is done at national and regional level?
- ▶ 2) What are the impacts of this multistakeholder model of Internet governance, which focuses more on civil society? What are the positive and what are the negative sides of it?
- ▶ 3) What kinds of issues, including IP address resources governance, DNS or Net neutrality issues have been discussed at NGI and RGI? What has been and will be discussed in NGI/RGI this year?
